

M4RD

M4RD Clinical Ambassador Task list

When you applied to become an Ambassador for Medics4RareDiseases, you agreed to undertake a number of activities/tasks on our behalf to support the M4RD team in their aim to raise awareness of rare diseases amongst medical students and doctors in training and to promote the work of M4RD and its message wherever possible, engaging and supporting medical students to encourage their interest in rare diseases and to get involved in M4RD.

Key activities

During your 12 month tenure with us, we would very much like you to complete the following:

| Activity | Notes | Completed |
|--|--|-----------|
| A minimum of 1 blog | Gather information on rare diseases to produce content for M4RD's news page | |
| Support a rare disease event at your hospital/medical school | | |
| Provide basic education in rare disease | Rare Disease 101 module https://learn.m4rd.org | |
| Promote the work of M4RD and its message in an educational setting | Arrange a lecture, ward teaching, informal teaching or supervision | |
| Identify learning resources for M4RD website | Develop the LEARN section of www.m4rd.org | |
| Attend M4RD annual symposium | Provide content for social media | |
