## ENROL IN RARE DISEASE 101!

Did you know that in the UK, a **RARE CONDITION** is defined as one that affects **<1 IN 2000 PEOPLE?**

Rare diseases are individually rare but collectively common, with over **3.5 MILLION PEOPLE IN THE UK** living with a rare condition and **>7000 RARE CONDITIONS** already identified.

It's impossible to know about >7000 rare conditions, so here at Medics4RareDiseases (M4RD), we have developed a **new approach to rare disease education**. You can teach medics the basic concepts relating to ~7000 rare diseases without going into the details of each.

Take a crash course in rare diseases by enrolling in **Rare Disease 101**, a **first-of-its-kind** educational series of online modules!

### RARE 101

**Rare Disease 101** not only explains the impact of **living with a rare disease** but also includes information that the average medical professional may not be aware of, with many **stories, examples, tools, websites, knowledge sources** and **images** from the rare disease community.

**Start your training now and become a rare ally!**

**It's never too soon to be the difference to your rare patients.**
